

Let's Get It Up

(start after short break)

Loose lips, sink ships
So come aboard for a pleasure trip
It's high tide so let's ride
The moon is rising and so am I
I'm gonna get it up
Never gonna let it up
Cruising on the seven seas
A pirate of my lovin' needs
I'm never going down, never going down

So let's get it up
Let's get it up
Get right up, yeah
Let's get it up
Right to the top
Let's get it up
Right now

(Immediately start verse)

Loose wires cause fires
Getting tangled in my desires
So screw'em off and plug'em in
Let's switch it off and start all over again
I'm gonna get it up
Never gonna let it up
Ticking like a time bomb

Blowing up the fuse box
I'm never going down, never going down

So let's get it up

Let's get it up

Get it up oh oh

Let's get it up

Right to the top

Let's get it up

Right now

Get up

Come on here, right now

Let's get it up

Come on- let's get it up

Hey, get it, get it

Let's get it up

Switch it on start it

Let's get it up oh yeah yeah

Let's get it up (7x)

Get it up, Get it up!!

Right up
